APO Leadership

APO Leads is a leadership development program organized by the national organization of Alpha Phi Omega. The APO Leads program consists of five individual modular components of leadership development. Each of these modular components focus on skills that will help the participant be a successful leader and team member in Alpha Phi Omega and in life.

The five components of APO Leads are Launch, Explore, Achieve, Discover, and Serve. Launch is a pre-requisite for participation in any of the other four courses. At the completion of the series of courses, the participant will have a set of transferable skills that are applicable to Alpha Phi Omega, to the working world, as well as to leadership in other organizations.
