

## Order of the Arrow Summit Experience Packing List

### Worksite Gear

Your foremen will perform a “gear shakedown” to ensure every participant is bringing only the items necessary for the workdays. The remaining items will be kept at our Summit Campsite during the workdays. There is lockable storage available in our Summit office building for smaller, valuable items (cell phones, iPods, tablets, etc.).

The trail building portion of the program will require a short hike to the campsite. Therefore, all gear needed during workdays will need to fit into a backpacking style backpack.

Although certain items can be purchased in the trading post, it is important that participants be prepared and bring as many of the items on this list as they can.

(TP – Sold in Summit Trading Post)

Long Pants (Work Pants)	1-2	Recommend 2 pairs. Will be used for trail building. Do not use BSA Uniform pants.
Work Shirt	1-2	Short or long sleeved. Will get dirty.
